Government and Military: Port of Anchorage, Alaska; Defense Supply Center – Philadelphia, DND-Goose Bay Labrador

Power Companies: Hydro Québec, James Bay Energie Corporation, Manitoba Hydro

Our Offer

The range of services we provide clients in North America includes:

- Integrated services provided at large operations complexes, such as camp construction, catering and nutrition, housekeeping and laundry, facilities maintenance, security, and transportation support services.
- Security services including protective services for customers' personnel and facilities, threat assessment analyses, airport and port security services, and emergency medical response.
- Catering, housekeeping and laundry services on offshore oil platforms and mobile rigs.
- Restaurant and hotel services provided at Native American-owned gaming facilities.

Some of our References in North America

North Slope Alaska Projects

Our affiliated companies have participated in every major remote project in Alaska since World War II, including construction of the Trans Alaska Pipeline, as well as building of defense bases and communications networks across the state. We served the drilling crew that discovered the Prudhoe Bay oilfield and today we provide a full range of support services at North Slope Operations facilities for clients Alyeska Pipeline, BP and ConocoPhillips.

A Key reference: The Alyeska Pipeline Security Contract

Security services provided by our Alaska joint venture company, Doyon Universal Services, help protect the 800-mile long Trans Alaska Pipeline and marine terminal at Valdez. The strategic importance of the contract is underscored by the fact that over 30% of the United States' crude oil consumption flows through the facilities.

Canada

Sodexho provides services that support the large Hibernia and Terra Nova energy development projects offshore eastern Canada, mining developments, remote timber logging projects and hydroelectric operations. In 2005, the Canadian Council for Aboriginal Business (CCAB) re-certified our Remote Sites activity with the Gold Level Achievement in the Progressive Aboriginal Relations Program (PAR), demonstrating our continued commitment to working with aboriginal communities.

A Key Reference: The BHP Ekati Diamond Mine

The Ekati mine, Canada's first diamond mine, is located little more than 100 miles from the Arctic Circle. Making a positive contribution to the economic and social well being of local residents is important to client BHP Billiton. Accordingly, in 1999 Sodexho formed a partnership with the North Slave Metis Alliance to provide catering and cleaning services at the 800-person camp. Our innovative "Cross Roads Cuisines" program meets the broad spectrum of tastes and preferences of mine employees.

Gulf of Mexico

Universal Sodexho companies provide catering and support services on oil & gas production platforms, mobile drilling rigs, construction barges and offshore support vessels stretched across hundreds of miles of the Gulf of Mexico.

A Key Reference: Deepwater Projects

As the search for oil and natural gas has advanced into deeper waters, Universal Sodexho has followed, providing services on deepwater facilities operated by clients BP, ConocoPhillips, ExxonMobil, Shell and Total that operate in water depths exceeding 5,000 feet. We add value to our client's projects by providing impeccable logistics in this challenging environment where operations can't be interrupted.

Where to contact us (our main offices)

USA Headquarters & Gulf of Mexico

5749 Susitna Drive
Harahan
LA 70123 USA
